WHY GUERNSEY BUSINESSES SWITCH

A payments partner that is actually here

Smarter Payments is a card processing company covering the Channel Islands. We look after island businesses of every size, from cafes, trades and charities to some of the largest businesses on the island. Our support team is UK based and available seven days a week, and we carry replacement machines on the island.

1,000+
island businesses and charities already trust us with their card payments

25 to 40%
typical saving on card processing costs for our customers

Savings vary by business and depend on your current rates and card mix. We will show you your own figures before you commit.

Reduce your costs

Many businesses pay more than they need to for card processing. We sit down with you, review your current statements, explain every line in plain English and show you what you could save before you commit.

Better service

UK based support, available seven days a week. When you need help, you get a straight answer from our own support team.

Replacements on the island

We carry replacement card machines on the island. If a terminal fails, you are not waiting on a delivery from the mainland.

Supporting Guernsey

Main sponsors of Guernsey Cricket, and assisting local charities.

WHAT WE OFFER

Everything you need to take payments

- **Latest card machines**
- **Latest technology**, including pay by link, QR code and recurring payments
- **EPOS solutions** to bring sales, stock and card payments into one simple system
- **Cancellation assistance** with your existing acquirer
- **Clear, honest pricing** with no jargon and no surprises on your statement

Switching is simpler than you think

1
We review your statement with you
We go through your current statement together, face to face.

2
See your savings
We show you, in plain English, what you pay now and what you could pay with us.

3
Get set up
If you decide to move, we arrange your new machines and get you trading.

4
Stay supported
Our UK based support team is available seven days a week.
